2018: SB04

MEMORANDUM TO: Senior Business Officials

FROM: Cheri Hayward
Director
School Business Support Branch

DATE: **March 26, 2018**

SUBJECT: **Student Transportation – Grants for Student Needs,
2018-19**

As a follow-up to Memorandum 2018: B06, dated March 26, 2018, I am writing to outline the transportation funding allocations through the Grants for Student Needs (GSN) in 2018–19 and to provide an update on the student transportation engagement.

Transportation Funding Allocations

The total Student Transportation Grant is projected to be \$961.4M in 2018–19. A board-by-board summary of the projected allocations for 2018–19 is provided in Appendix A.

Enrolment Adjustment

The Ministry of Education will provide \$9.0M to support school boards with increasing enrolment. The ministry recognizes that declining enrolment does not necessarily result in lower costs or reduction in vehicle use; therefore, boards with declining enrolment will not see any negative adjustments made to their transportation funding.

Cost Update Adjustment

For 2018–19, the ministry will increase the cost update adjustment from 2 percent to 4 percent to provide additional support for school boards to manage increased costs. As in previous years, boards with a transportation deficit in the 2017–18 school year will receive the cost update adjustment, while boards with a transportation surplus will only receive the difference between their surplus and the cost update adjustment if the surplus is less than the total value of the adjustment. It is projected that \$25.5M will be provided for cost updates in 2018–19 school year.

School Bus Rider Safety Training Component

As previously communicated in *Memorandum 2017: SB12* issued on June 1, 2017, the ministry is pleased to announce that standardized on-site school bus rider safety training for elementary students will be available starting in 2018–19. This training is available through a contract established by the Ontario Education Collaborative Marketplace (OECM) with Intertrain. The availability of this standardized program is intended to support the sector in addressing the Auditor General's recommendations for standardized school bus safety training.

The standardized school bus rider safety training is available in English and French and has two age-targeted programs:

- Primary students (JK to Grade 3); and
- Junior/intermediate students (Grades 4 to 8).

To encourage uptake of this standardized training, the ministry is providing funding support to safety training for up to 50% of the boards' elementary students in 2018-19. Funding will be based on the actual number of training sessions conducted and as reported through financial reports, subject to the maximum number of training sessions listed for each school board in Appendix B. It is important to note that only training programs delivered by Intertrain through this OECM contract are eligible for this safety training funding support.

It is the ministry's intention that, with this funding support, all elementary students in Ontario will be provided with on-site and in-person school bus rider safety training every other year at a minimum. School boards that choose to deliver on-site training every year to all students have to allocate budget to fund for the additional training sessions.

School boards and student transportation consortia that would like to provide this training to their students for the 2018–19 school year are encouraged to contact OECM to establish a service agreement. Please note that a service agreement should be established by **April 30, 2018** to ensure training services can be scheduled for fall 2018.

For more information on the standardized school bus rider safety training, please visit the [OECM website](#). Questions about accessing this program and establishing an agreement should be directed to OECM through Mie Okawa at mie.okawa@oecm.ca or (647) 289-3717. Questions about funding support should be directed to the ministry.

The ministry would like to remind school boards that school bus rider safety training videos that were released at the beginning of the 2017–18 school year are still available on [YouTube](#) and [Vimeo](#). These videos cover the general school bus safety topics such as waiting for the school bus, what to do when the bus arrives, getting on and off the school bus, and riding the school bus. Other age-specific and audience-specific topics include roles and responsibilities, student behaviour and bullying. School boards can use these videos throughout the school year to complement the on-site school bus rider safety training. The ministry encourages school boards to incorporate these free videos into their school bus rider safety training practices.

Fuel Escalator and De-escalator Component

The ministry recognizes that fuel costs for student transportation are beyond the control of boards. The fuel escalation and de-escalation mechanism provides some stability in funding for school boards. For 2018–19, the ministry will continue to use the adjusted pegged price of \$0.936 per litre for southern school boards and \$0.957 for northern school boards¹.

The GSN regulation will continue to have a corridor of 3 percent above and below the adjusted pegged prices. If fuel prices, as posted on the Ministry of Energy website² (net of HST), are above or below this corridor in any month from September to June, a funding adjustment will apply. This provision takes into consideration frequent minor fluctuations in market fuel prices that are manageable within the industry and as such, monthly fluctuations in fuel prices within the corridor will not trigger any adjustments. The net total of the monthly funding adjustments will be applied to a board's transportation allocation following the submission of Boards' 2018–19 Financial Statement in November 2019. Boards should note that this adjustment could be positive or negative.

The ministry would like to remind boards to take the potential funding changes due to fuel escalation or de-escalation into consideration when preparing their 2018–19 transportation budgets.

Transportation to Provincial and Demonstration Schools

There are no changes to the funding of daily transportation to Provincial and Demonstration Schools. Transportation funding to cover expenditures for transportation to Provincial and Demonstration schools will continue to be provided based on expenditures reported by school boards, as approved by the ministry. School boards may report these expenses through financial reports and receive direct reimbursement with expenditure approval.

Engagement on a New Vision for Student Transportation

As you are aware, the ministry launched a broad engagement to develop a new vision for student transportation in Ontario. Since January, the executive co-leads, Joan Green and Michel Paulin, have met with school boards, consortia, operators and other community and stakeholder groups across the province. The ministry appreciates the support from the education sector on this important initiative to date. We would like to thank those who have provided submissions to the co-leads as we continue our work on developing a new vision for student transportation in Ontario.

¹ All fuel rates quoted in this memorandum are net of HST.

² <http://www.energy.gov.on.ca/en/fuel-prices/>

Over the coming months, the executive co-leads will review all submissions received through email and feedback gathered from the engagement sessions. They will also conduct research and analysis to support the recommendations in their summary report back to the Minister, expected in fall 2018. The summary report will include short and long term recommendations for the ministry to consider to achieve our student transportation goals both now and into the future. It will also provide guidance for future policy development on issues such as funding and accountability.

If you have any questions or comments, please contact Sandy Chan, Manager, Transportation and Cooperative Services Unit, at (416) 325-2464 or sandy.chan@ontario.ca.
